

Author BLA28 and retained FSM references

◆ Family mean ○ One fit or individual seed

Exposed DEV forecast error

Separate-process timing: descriptive only

C100/H128, exposed 100/200 mV DEV; 12 correlated-period records. All reference weights unchanged; BLA refitted on FIT only.

Known input sequence; no future outputs. No untouched-test, novelty or controlled speed claim. Neural timing: mean of three seed medians.
