

The designated joint arm against every comparator: all 16 checks

● Backbone seed 97 ■ Backbone seed 109 ▲ Backbone seed 127 ◆ Three-seed mean

Mean gain required: 0 pp versus backbone, +1 pp versus trained controls (vertical ticks). Every paired seed must be at least -0.5 pp (dotted). Green/red denotes the complete check passing/failing. Bars are the saved conditional game-bootstrap intervals; they are not the gate.
